Rob Duncan
Creative Director
Mucho
466 Geary St #301,
San Francisco, CA 94102

Dear Rob,

I am a recent graduate of ArtCenter College of Design with a Bachelor of Fine Arts in Graphic Design, specializing in brand identity systems, editorial design, and packaging design. I am writing to express my interest in the Junior Graphic Designer position posted on your website.

MUCHO has long been a source of inspiration to me due to the way your work brings together strategy, culture, and design to create meaningful experiences. I am particularly drawn to your belief that great design is shaped by diverse perspectives and thoughtful collaboration.
Your rebrand of Aeroméxico was especially influential during my studies. I was fascinated by the digital language you created through the repetition of shape and form, and by how the system remained both flexible and unmistakably cohesive across applications.

A project that reflects a similar interest in systems and cultural storytelling is my UNESCO rebrand. The project explored the preservation of languages, traditions, monuments, and natural ecosystems as shared human heritage. Through an interconnected visual identity system, I communicated the idea that while cultures around the world are distinct, they are also part of a larger fabric that connects us all. It challenged me to think beyond aesthetics and consider how design can help communicate complex cultural narratives in a clear and engaging way.

I am excited by the possibility of contributing to a studio that values curiosity, craft, and cultural relevance as deeply as MUCHO does. It is also my plan to possibly move to San Francisco to broaden my own perspective, and it would be a dream of mine to have the opportunity to contribute to work that has a lasting impact. I will be following up next week and I look forward to having a conversation with you and if possible, an interview as well. Thank you.

Best regards,

David Gomez
